

Reading School District Knight's Closet

The district has established a Knight's Closet at each of our school buildings to help students in need, particularly those who are homeless or at-risk. Our goal in creating the Knight's Closet is to meet students' basic needs with items such as food, clothing, hygiene products and school supplies. We are hopeful by fulfilling these needs students will be able to focus on their education. The district's social work team works closely with these students to ensure they are educated on how to access additional outside resources.

Please contact the principal, nurse or school counselor at the school. Click here to see a list of [our schools](#). OR Snisky snisky@readingsd.org or Leanne Eckenrode eckenrodel@readingsd.org.
